Table with 3 columns of numerical data. The first column contains values from 40965 to 41141. The second column contains values from 282125 to 282277. The third column contains values from 9109040 to 9109113. The fourth column contains values from 41142 to 41318. The fifth column contains values from 282279 to 282426. The sixth column contains values from 9109114 to 9109165.

Table with 4 columns containing numerical IDs ranging from 53009 to 53185. The data is organized in three columns, with the first column containing IDs 53009-53185, the second column containing IDs 290032-290104, and the third column containing IDs 9110969-9110835. A fourth column of IDs is present but mostly blank.

Table with 3 columns of numbers. The first column contains numbers from 63469 to 63651. The second column contains numbers from 293556.01188 to 293532.29863. The third column contains numbers from 9108706.77576 to 9108509.25496.

Table with three columns of numbers. The first column contains numbers from 64567 to 64749. The second column contains numbers from 286479 to 286649. The third column contains numbers from 9112228 to 9112272. The numbers in the second and third columns are generally aligned with the numbers in the first column.
